Implementation

## Get it right the first time

The IT industry is littered with examples of badly run projects with escalating costs, missed deadlines, reduced scope and failure to achieve the objectives and benefits defined at the outset. Many of these projects have been run using proven methodologies – but have still failed to deliver. This is often caused by the lack of detailed preparation prior to project commencement and a lack of ‘people’ based focus.

**Doable Project Management** is an education process which helps to organise project teams and ensure that they are ready to implement a new business system with confidence.

# What customers say...

**"The professional assistance that Bigen Africa received from williamswoodward paved the way for a successful implementation of the Agresso business Solution."**

*Francois Swart, CEO, Bigen Africa, Pretoria, South Africa.*

**"williamswoodward's consultancy was invaluable to 3i during a significant upgrade of U4BW and their knowledge of the product helped us to meet a very challenging project deadline. I would not hesitate to engage williamswoodward again."**

*IT Manager – 3i Group Plc*

**"The success of this project is down to the close working relationships and in agreeing a clear approach from the outset. The personal skills and technical williamswoodward team ensured that the project went smoothly. We would be happy to work with them again and recommend them to other customers!"**

*Head of Corporate Services, Accent Group*

*williamswoodward provided University of York with the technical (DBA) skills for their upgrade. Andrew Busby, Agresso Project Manager said...*

**"As well as providing excellent service and expertise williamswoodward are a good value for money consultancy. The consultant also worked well with internal University staff, which is a key consideration when bringing in consultancy for systems work".**

**"williamswoodward is our "go to" consultants for all our complex Unit4 Business World business requirements. Their expertise and reliability has been a great benefit to our business. We hire williamswoodward on a regular basis and will continue to do so."**

*IT Manager – RWS Group*

**"Unit4 Business World is doing exactly what it says on the tin. The team at williamswoodward have a good blend of knowledge and expertise and we would highly recommend them to any future customer."**

*Assistant Executive Director – Tameside Metropolitan Borough Council*

**Let us help you with your project,  
being successful together is fun.**

## UNIT4

**A fully integrated ERP system  
for service or  
people-based organisations**

## doable project management

**A proven methodology  
to help you  
get it right the first time**
